If that's how you feel then

Our only
option now
is a suicide
attack with

We are
defeated

Or perhaps
he came
and I killed
him
already

At this rate,
it seems
Kurono Kei
is not
coming

Causing it

I will use

The alien mothership set to crash into earth

Optimistic estimates of the ship's size put it over 1200km in diameter.

Should the ship fail, temperatures will reach no less than 999 degrees C

And wind speeds will clock in around 3000kph

Around the Net, comments like "It's over...".

"I guess no Christmas this year" mixed with laughter and tears
